TIBCO TRAINING

TIBCO TRAINING ONLINE AND CLASSROOM

Tibco makes integration server software for enterprises. An integration server allows a company to mix packaged applications, custom software, and legacy software for use across internal and external networks. Tibco's patented approach is called Information Bus (TIB) and Tibco says that it has been used in financial services, telecommunications, electronic commerce, transportation, manufacturing, and energy. Tibco competes with SeeBeyond, Vitria, and webMethods among others.
