Watch Web Designing Demo Video Here:

<https://youtu.be/VpPYig1vN3E>

Why Training with Us?

I am giving Web designing training with 2 projects. One project is Mini project and 2nd project is live project in Web designing. This project will help definitely in your job.

Certification: Yes I will provide you Certificate after successfully attending the class this will help you in job assistance. I am also helping you in help placement.

Placement and Job: I will give placement assistance. Because I am giving you real time training with live project so definitely it will help you in job. I have tie up with good company who hire my students.

My address for Class room training: Ruchiwebsolutions,#201,Datta Sai complex ,Beside IKON hospital, Landmark: Near to Vijaya Diagnostic Centre, Dilsukhnagar, Hyderabad, call if any problem to 09347045052.

About Trainer

I am Ranjan master degree in computer from Utah State University, USA. I am part of PHP2Ranjan in Hyderabad, India. I have total 8+ years of experience in Web designing and user interface designing. I have developed 400 dynamic website till now on html4, html5, css2,css3,js,jquery and angular js. I have 6 years of experience in Online and class room training. I already gave the training to some of the corporate company from UK, USA, Malaysia and India in Web designing and user interface designing. I have worked with international clients based in USA, UK, Canada, Netherlands, Australia, Italy, Ireland, France etc. I have worked on many different projects - ranging from small software to complex web applications.

I have a company with name of PHP2Ranjan in Dilsukhnagar Hyderabad. I have 3 Web designer and UI designer working in my company who has 8+ real time experience. That UI developer is going to take your class. He already has given training of 3000 Students till now, and all working in MNC and Software web Development Company. After demo class, once fee paid will not be refundable.

Our Teaching style: I give real time training with LIVE PROJECT IN Web Designing. Basically i am developer of 8 yrs of experience so I will try to give my best output in web designing training.

Project Training:

- 1) Mini project: Below are features of mini-Project in web designing. This is developed in OOPS as well. As soon as I will start this project, parallel I will assign one assignment project to you so that you will be coding coding on your mini project.

Features of Mini-project: first of all we are creating one database and create register table.

- Registration: creating one registration form using html, filling the form, connecting with database, sending the form value to database.
- Login: we are going to login. Checking login page value dynamically.
- **Create Profile:** Fetching the value from database. Fetching the dynamic image and files into page
- File upload and images upload concept
- **Edit your profile:** We can change our value
- **Forgot password** : if you forgot pass then you have to enter your email id
- **Remember password:**
- **Session and cookie implementation**
- **Upload the image in database** who to fetch image from database
- **File upload:** uploading the file and fetching the files . word doc, notepad, PDF
- **Sending email** by PHP like quick contact form
- **Viewing others profile**
- **Search profile:** Quick search
- (search by First name , search by last name or search by email id)
- Delete profile
- Logout

2) Live project Web Designing: shopping cart project training -I will explain each and every line of code in this project with database, admin panel and user section. I will explain below points. Name of the project is : I am going to explain same project and I will teach with real coding of this project.

- Flow of project / requirement analysis
- how to create database and tables
- explaining the each files of admin panel
 - * Add/edit/delete of category
 - * Add/edit/delete of Products
 - * Order Management.
 - * PayPal management.
 - * Login of admin
 - * change password
 - * Logout
- Explaining the each files of front end
- explaining the PayPal payment gateways

Analysis of your requirement

Creating the flow of project

Database design

Administrator panel: all data of front end will be controlled by admin
Paypal payment gateway
Front end

Course subjects , time spent and level:

| Subject | Total class | Level |
|---|--------------------------------|--|
| HTML4 | 3 Hours | Depth level |
| HTML5 | 4 Hours | Depth level |
| CSS2 | 5 Hours | Depth level |
| CSS3 | 3 Hours | Depth level |
| JAVASCRIPT | 3 Hours | Depth level |
| PHOTOSHOP | 2 Hours | Basic level |
| | | |
| jQUERY | 4 Hours | Intermediate Level |
| BOOTSTRAP | 4 Hours | Intermediate Level |
| | | |
| Project using html5 ,css3,bootstrap | 3 Hours | Depth level |
| | | |
| ANGULARJS | 3 Hours | Intermediate Level |
| | Total number: 45 days duration | Daily 60 minute class , Monday to Saturday |
| <p>Soft copy notes will be given to each student. Each session will be provided video after class. I will provide Live project course code with database so that you can implement in your local machine.</p> <p>Important notes: I will teach you in such a way that you can apply for One year experience job also.</p> | | |
